KANHA PATHAK

Aspiring Data Analyst | Computer Science Engineer
Agra, Uttar Pradesh, India | hpathak144@gmail.com | +91 7505823435 | LinkedIn | GitHub | Portfolio

ABOUT ME

B.Tech Computer Science & Engineering graduate (2026) skilled in Python, SQL, PostgreSQL and Excel, with hands-on experience in exploratory data analysis, customer risk profiling and business reporting. Adds a practical web development foundation (HTML, CSS, JavaScript) and computer vision experience (OpenCV). Seeking an entry-level Data Analyst role where I can turn raw data into clear, decision-ready insights.

SKILLS

Programming & Query Languages: Python, SQL, JavaScript
Data Analytics: Exploratory Data Analysis (EDA), Risk Profiling, Data Handling, Business Reporting
Databases: PostgreSQL
Tools: Microsoft Excel, Microsoft Word, OpenCV
Web Technologies: HTML, CSS, JavaScript

WORK EXPERIENCE

Junior Software Developer Intern | Mahesh Edible Oils Products Pvt. Ltd. *June 2025 – July 2025*

- Developed and maintained internal software tools that supported the team's daily operations
- Managed structured datasets and records, keeping business information organized and easy to retrieve
- Partnered with the IT team to debug application issues and improve performance

VIRTUAL EXPERIENCE

GenAI-Powered Data Analytics Job Simulation | TATA (Forage) – virtual program *July 2025*

- Analyzed real-world business datasets through Exploratory Data Analysis (EDA) to uncover patterns and actionable insights
- Built customer risk profiles and applied data-driven methods to predict customer delinquency
- Delivered a structured business report that gave stakeholders clear, data-backed insights to support decision-making

NOTABLE ACHIEVEMENTS

- Completed the Tata GenAI-Powered Data Analytics Job Simulation (Forage), building risk profiles to predict customer delinquency
- Built a real-time Hand Gesture Control System using Python and OpenCV
- Gained industry experience as a Junior Software Developer Intern while completing B.Tech (2026)

PROJECTS

Hand Gesture Control System *2025*
Python, OpenCV

- Designed a computer vision system that controls digital applications through real-time hand gestures
- Implemented gesture recognition and real-time decision logic using Python and OpenCV, improving human-computer interaction

Web Development Practice Projects *2024 – 2025*
HTML, CSS, JavaScript

- Built responsive web pages with form validation, forming a base for data dashboards and reporting interfaces

EDUCATION

B.Tech in Computer Science & Engineering | R.B.S. Engineering Technical Campus, Bichpuri, Agra *2022 – 2026*
CGPA: 7.02/10 | Class XII (UP Board, 2022): 65% | Class X (UP Board, 2020): 75%
